

# Product Information SLB

## Suppression Litter Bin

The SLB, Suppression Litter Bin is a product with an attractive design made to withstand detonations and give protection against high-speed fragments and blast wave in horizontal direction. Its unique design makes the emptying of litter easy. The SLB has a dual casing and can be used with or without the inner bomb suppression chamber depending on the security level needed.

The SLB is used to increase public security at airports, railway stations, banks and other public areas.

Key strengths:

- High suppression capacity
- Attractive design
- Flexible use – with or without inner bomb suppression chamber
- Functionality - easy to empty
