

PRESS RELEASE

CHARLES DIGGS BECOMES CEO OF DYNASAFE INTERNATIONAL AB

Talladega, Alabama, Release: June 1st, 2019. For Immediate Release

Dynasafe International AB today announced that its Board of Directors has appointed Charles Diggs as Chief Executive Officer effective immediately. Diggs previously held the position as Managing Director of Dynasafe LLC US.

“Dynasafe has moved into a solid growth phase over the past 12 months and the prospects for continued growth for the coming years remain very strong. A major part of this growth has come from the US market, which also represents the strongest midterm potential”, said Ola Erics, Dynasafe AB’s Chairman of the Board of Directors. “Charlie has the right focus combined with the business acumen, vision and commitment to lead the business as we grow and meet the market demand. His experience and leadership will be valuable for Dynasafe AB as the company enters its next chapter of growth and expanded product innovation.”

Prior to his current role, Charlie served as Managing Director for the Americas for Dynasafe AB. His role encompassed all aspects of the company’s operations, including sales and business development for North and South America which included developing key strategic relationships with private and governmental entities in the US market.

“Dynasafe AB is one of those rare companies to have truly revolutionized the world of demilitarization and the defense industry, and I am looking forward to meeting the challenges of this new role,” Charlie said. “The opportunity ahead for Dynasafe AB is huge. We must focus, move faster and continue to transform. A substantial portion of my job is to accelerate our ability to bring ground-breaking demilitarization and explosive containment products to our customers more quickly.”

[About Dynasafe](#)

Dynasafe is a technology and innovation leader specializing in the research, design, development, manufacture and integration of explosive containment chambers and demilitarization of munitions. We draw on our 25-year history of service to the defense industry and our culture of continuous improvement to create value for our customers.

Dynasafe has been in business since 1991. We operate in more than 70 countries with customers in both the public and private sectors. We have delivered more than 350 gas-tight and vented explosive containment chambers and 30 chemical and conventional demilitarization plants globally.
